RE: Compilation of Transcribed Speeches  
To Review for Distribution

*Jim -*

Please find attached a compilation of eleven transcribed speeches which you have delivered both internally and externally from 11 February through 23 July 1993 in conjunction with PAI. Note that these include both classified and unclassified remarks. We have also separately listed the other presentations you have given internally and externally through PAI which have not been transcribed because they were not taped, because the tapes were not audible enough for transcribing, because they are on video, or because a transcript is pending.

As you know, we have had several requests for transcripts of your speeches from both the public and cleared individuals, but have refrained from distributing them until cleared by you. To facilitate distribution of those speeches which you feel should be made available, we have attached a cover sheet on the front of each transcribed speech for you to indicate your preferences.

Please note that your Congressional testimonies have not been included since full transcripts are available through Office of Congressional Affairs. Also, we have not included "Town Meetings" or highly sensitive presentations.
